

**CIS 3760 – Software Engineering**  
**Instructor: Prof. S. Scott**  
**Individual Accountability Report (IAR) Template**

Note. Refer to the Project Manual for detailed instructions for IAR submissions.

**Individual Accountability Report (IAR) Template**

The following questions **MUST** be included and answered completely for each submitted IAR.

**Q1. Student Name:** Rafael Wiska-Ilnicki

**Q2. Student ID:** 1061997

**Q3. Associated Team Deliverable:** Sprint 1

**Q4. Section#, Team #:** Section 1 Group 6

**Q5. What were the main technical or methodological concepts and/or skills that were required to complete this team deliverable? (bulleted list is preferred):**

- Tech stories
- Android Studio
- SQLite
- Java
- GitLab issues
- Burndown charts

**Q6. What was your existing level of experience with these topics/skills before your team began working on this deliverable? (1-2 sentences):**

In previous labs, I worked with my team to create tech stories for the project. In CIS\*3750, we worked with setting up burndown charts, but documented them manually. In my personal projects, I have worked with Android Studio, SQLite, and GitLab issues, which are similar to GitHub's issue tracker.

**Q7. Comment on your individual academic, methodological, or technical learning during this deliverable, and what additional learning may be needed to understand or be more competent with these topics in the future?**

During this sprint, I felt capable in the skills that I used. In many of the skills used, I could draw parallels to past experiences. I had to review some documentation when working on the SQLite database.

**Q8. What specific contributions did you make to this team deliverable? This should include technical or project management contributions.**

During this deliverable I worked on two tech stories, which gave the ability for the database to add audio and image notes in the future. I also contributed by setting up the Wiki pages for tasks and testing documentation.

**Q9. With whom did you collaborate for any of the above contributions (be specific)?**

I worked with Sooraj in creating the Burndown charts.

**Q10. Comment on how well you managed your time over the time period allocated in the Course timetable to this team deliverable (i.e. the time between the prior team deliverable to this team deliverable).**

During this deliverable, I was able to manage my time extremely well. I had my tech stories done early. I should have set up the Wiki pages earlier in the sprint.
