

Individual Accountability Report

Student Name: Mustafa Al-Obaidi

Student Id: 1067533

Associated Team Deliverable: Project Backlog Creation

Section: 1, Team: 6

What were the main technical or methodological concepts and/or skills that were required to complete this team deliverable?

- UML diagrams
- Class diagrams
- Knowledge of User/Tech stories
- Analyzing the class diagrams
- Understanding the application to give an overview as well as the design recommendation for the application
- Knowledge of designing a product backlog

What was your existing level of experience with these topics/skills before your team began?

Before we started working on this project, I did not know how to write a good user/tech story, with the help of my team I was able to understand them and write many good ones.

Comment on your individual academic, methodological, or technical learning during this deliverable, and what additional learning may be needed to understand or be more competent with these topics in the future?

This project helped me understand the structure of working with a team in an agile working environment. Also, I learned more about UML diagrams/Class diagrams. Moreover, I learned to write a good user/tech story.

What specific contributions did you make to this team deliverable? This should include technical or project management contributions.

I worked on the project backlog, which includes writing user stories and technical stories, as well as inserting them in the table, my team have helped me write some of them and edit others. Also, I worked with teammate Rafael to upload the project backlog

to our GitLab. Moreover, I was responsible to upload our team deliverable to CourseLink and make sure it is submitted successfully.

With whom did you collaborate for any of the above contributions (be specific)?

All team members have contributed to the project backlog, mostly Rafael and Soraj.

Comment on how well you managed your time over the time period allocated in the Course timetable to this team deliverable (i.e. the time between the prior team deliverable to this team deliverable)?

I managed my time very well, my and my team ensure that we finish our deliverables at least 2 days before the due date and we allocate the remaining two days for editing.
